## EDUCATION

**Mahatma Hansraj Modern School**

Jhansi, Uttar Pradesh

High School, 10<sup>th</sup> Grade ; Percentage: 88%

**June 2024**

---

## SKILL SUMMARY

- **Languages** : JavaScript, TypeScript, Python , CSS , HTML
- **Frameworks & Libraries**: React, Node.js, Express.js, GSAP, Tailwind CSS, Bootstrap
- **Tools** : Git, Github, Docker, NPM, Postman
- **Databases**: MongoDB
- **Design & Prototyping**: Figma

---

## WORK EXPERIENCE

**Frontend Developer Intern**

**August 2024 - November 2024**

*Insight Ed*

- Built the entire company website from scratch using **React** and **GSAP**, creating a dynamic, high-performance user experience.
- Contributed to UI/UX design for several applications, ensuring responsive and user-friendly interfaces.
- Gained hands-on experience working with the company's core ERP software, focusing on front-end development and functionality.

---

## PROJECTS

**Snap Study - AI-powered Summarizer (Hackathon Project)**

*Developed during CodeDay, IIT Delhi*

- Built an AI-powered text summarizer to help students quickly grasp key concepts from lengthy texts.
- Integrated technologies such as **Ollama**, **Node.js**, **Express**, **Python**, and **React** to create an efficient solution for studying.
- Focused on compressing complex information into manageable summaries for faster learning.

**Zeus Store - Full-Stack E-commerce Website**

*Built with MERN Stack*

- Developed a full-stack e-commerce platform for selling PC components, including GPUs and other hardware parts.
- Implemented both frontend and backend using **MongoDB**, **Express**, **React**, and **Node.js** (MERN stack).
- Integrated payment systems, user authentication, and a responsive UI for a seamless shopping experience.

---

## CERTIFICATES

- **Code Day Hackathon – IIT Delhi**  
Participated in a hackathon where I collaborated with a team to develop innovative solutions under tight deadlines
- **Hack This Fall 2024 (Virtual)**  
Participated in a virtual hackathon, where we tackled real-world problems through creative coding and development.
